# the COLOPHON

## from the editors...

### TO OUR READERS,

Thank you for purchasing the 104th volume of Madrono. Our staff members have worked hard this year, taking photos and interviewing the community to create a book that represents who we are as a school.

We would like to thank our whole team, including our Walsworth representatives, Natalie Maharaj and Elisha Whitaker, for keeping us motivated throughout the year and bringing us donuts to celebrate different milestones. Without the two of you, this book wouldn't have been possible.

We hope that when you flip through this book, years from now, that you remember all the great memories that we shared. From the first day of school, to the last, we searched for our places, finding the best one was our own community.

Even though we hold every single page to the highest standard, there will always be some imperfections and errors. We hope that despite some inevitable flaws, you love the book and the memories it holds. Thank you for letting us tell the story of your year!

*with all our love,  
the 2022-23 eds*
